**ANNUAL STATISTICAL REPORT
FISCAL YEAR 2004-2005
NORTH CAROLINA ALCOHOL & DRUG ABUSE TREATMENT
CENTERS**

INTRODUCTION:

This is an annual report providing information from selected service indicators on the North Carolina Alcohol & Drug Abuse Treatment Centers (ADATC). Data included in the report are compiled from client admissions, client movements including discharges, and client diagnostic information. The data are stored in the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services Client Data Warehouse(CDW).

Six detail summary tables are presented in this report. Eight additional graphs are provided to highlight data in the summary tables. Table 1 provides population summary data for fiscal year 2005 for each of the three Alcohol & Drug Abuse Treatment Centers. Data on persons served by region and county are presented in Table 2a, Table 2b, and Table 2c. Table 3a provides the demographic characteristics of the persons served at the three ADATCs. Table 3b shows the number of persons served by the three ADATCs by employment status and education. Table 3c presents number of persons served by the three ADATCs for two populations of special interest, pregnant women and injection drug users, by commitment level, and by diagnosis. Table 4 provides a comparison of major service indicators for the past ten fiscal years and Table 5 provides Discharge Days and Average Length of Stay for each of the three Alcohol & Drug Abuse Treatment Centers. Table 6a displays the primary drug of choice, while Table 6b provides any drug of choice for three Alcohol & Drug Abuse Treatment Centers.

ADMISSIONS:

Admissions have increased from 3,488 in fiscal year 2004 to 3,565 in fiscal year 2005. This is a 2.2% increase from FY04.

DISCHARGES:

There were 3,580 total direct discharges, deaths, indirect discharges, and transfer-outs in FY05. There were no deaths reported during FY05. The percent of direct discharges among total discharges was about 99%, while the percent of indirect discharges, those clients being discharged while on some type of leave placement, was about 1% in fiscal year 2005.

PERSONS SERVED:

The statistic “Person Served” is calculated by summing the book population at the beginning of the fiscal year plus all admissions and readmissions during the year. There were 3,732 persons served in state Alcohol & Drug Abuse Treatment Centers during fiscal year 2005.

The number of persons served per 100,000 population continues to be significantly lower in the South Central Region, at 22.0, than in the remaining three regions, in which each of the ADATCs are located. The Western, Eastern, and North Central regions rates are 40.8, 53.3, and 58.3 persons served per 100,000 population respectively. The “Persons Served” rate ranges from a high of 173.6 in Dare County to a low of 4.0 in Wake County, with an overall statewide rate of 43.1.

The average length of stay in FY05 was 16.3 days, a 1.4 day decrease from 17.7 days in FY04. The length of stay decreased at Black Mountain by 2.1 days, and decreased at Jones by 0.9 days. Butner’s length of stay decreased by 2.5 days.

Almost forty percent (39.4%) of persons served at the ADATCs in FY05 were women, an increase from 36.4% in FY04. The percentage of nonwhite persons served at ADATCs was 32.7% in FY05, slightly decreasing from 33.9% in FY04 .

For fiscal year 2005, 44.0% of the persons served reported cocaine as their primary drug of choice and 37.7% reported alcohol. In FY05, cocaine, as a primary drug of choice, increased by 6.3% and alcohol, as a primary drug of choice, decreased by 5.5% compared to FY04. Overall, 59.4% of persons served reported abusing cocaine, 58.8% alcohol, and 33% marijuana in FY05.
